

West-Central Wisconsin – Care Management Collaborative

Vision and Mission Statements and Guiding Principles

VISION:

People in West Central Wisconsin will have information about and access to an integrated and flexible health and long-term care system designed for people with disabilities and frail elders. This will operate as a regional managed care system that supports and enhances individual quality of life, choices, and cost effectiveness.

MISSION:

The West Central Wisconsin –Care Management Collaborative public and private partners will combine experience and resources to design seamless, comprehensive, and sustainable health and long-term care choices for all eligible consumers who have a disability and/or are frail elders.

Guiding Principles:

WCW-CMC is committed to service designed to support consumers' independence while embracing the following RESPECT guiding principles.

R*elationships* – Relationships between participants, care managers, and providers are based on caring, respect, continuity over time, and a sense of partnership.

E*mpowerment to make choices* – Individual choice is the foundation of ethical home and community-based long-term support services.

S*ervices to meet individual need* – Individuals want prompt and easy access to services tailored to their unique circumstances.

P*hysical and mental health* – Services are intended to help people achieve their optimal level of health and functioning.

E*nhancement of participant reputation* – Services maintain and enhance participants' sense of self-worth and community recognition of their value in every way possible.

C*ommunity and family participation* – Participants are supported to maintain and develop friendships and to participate in their families and communities.

T*ools for independence* – People are supported to achieve maximum self-sufficiency and independence.
